DR. S. A. LATTA'S IM PROVED
Dyspepsia, consisting of a Balsam and Tonic
mixture.—This medicine has been used by many
hundreds in the United States, and especially in
some parts of the western country. It is recom
mended especially for the cure of Dyspepsia, and
as a general remedy, it has succeeded beyond the
most sanguine expectations of the proprietor.—
And the necreasing demand for those medicines,
is the best evidence that he could have that the
expectations of the Dyspeptic have been fully reolized. This Balsam is intended to excite the action of the liver, equalize the circulation, purify
the blood, dispel humors, improve the state of the
skin, dispel flatulency, and remove crudilities
from the stomach, and thereby prevent the generation of acidity and its consequences, in digestion. It is an effectual remedy for habitual costiveness. It is wholly vegetable, and perfectly safe.
Those who are troubled with costiveness, cholic,
sick head-ache, dizziness, sourness of the stomach,
cold feet, heart burn, water brash, swelling of the
stomach, with pain after sating, raising the food
after cating, with belehing; and those who are
much debilitated, accompanied with a palpitation
of the heart, or with weakness and diarrhora, will
do well to avail themselves of the advantages to
be derived from the use of these medicines.

In Dyspepsia, the patient should commence by
taking one half teaspoon full one hour before
breakfast, dinner and supper. If this quantity
produces purging, after three or four days, the
quantity may be reduced so as to prevent costiveness, and to continue its use until health is retored; but if this quantity is not sufficient to
obviate costiveness, it should be increased until
he object is accomplished. This balsam is perectly safe, restoring health and vigor to the constitution in so short a time that patients are apt
to think their disease is removed at too early a
period, and, therefore, omit the use of medicine
too soon. If the use of one bottle in any given
case, does not

should be taken at the same time. See directions on the bettle.

Toric Mixture.—This medicine is designed to give tone to the system. It is the most powerful vegetable Tonic and Carmative; it strengthens the stemach, increases the appetite, and is an indispensable auxiliary to Latta's Anti. Dyspeptic Balsam for the cure of Dyspepsia. This medicine may also be used in all debilitated habits with great advantage and perfect safety. Adults should take two teaspoons full three times per day, and continue the use of the medicine as long as it may be found serviceable.

N. B.—The Balsam is taken before, and the Tonic Mixture after each meal.

Prepared by Dr. S. A. Latta, Ressville, Ohie. CERTIFICATES.

CERTIFICATES.

This is to certify that I have examined Dr. S.

A. Latta's prescription for the cure of Dyspepsia, and as a general remedy. I have no doubt but that it is equal, if not superior to any other remedy of the kind now offered to the public, and that it will answer the intentions for which it is recommended. I am the more clearly convinced or this from having witnessed its good effects in some important cases, in which a long continued treatment had failed. I am satisfied that these medicines will be of general service to the community, from the fact that they are almost universally approved by all who have witnessed or realized their effects, and from the eagerness with which they are sought for in the communities where they have been introduced. I more cheer. fully recommend these medicines, because they do not appear in the character of infallibility, nor do I understand them to be offered as a nostrum for every disease, but as a prescription (of one who has a right to prescribe) for the cure of Dyspepsis. They are purely vegetable and perfectly safe.

Dr. J. WATERMAN.

Lebanon, Ohio, Jan. 6, 1835. CERTIFICATES.

Lebanon, Ohio, Jan. 6, 1835.

Lebanon, Ohio, Jan. 6, 1835.

This certifies that my wife for the last four years has been afflicted with Dyspepsia, to an alarming degree. It would be useless to attempt a description of her symptoms. But it seems that she was afflicted with almost every symptom to which human flesh is heir. In the time of her affliction she was attended by ten Physicians, and was finally pronounced incurable. I then applied for Dr. Latta's Anti-Dyspeptic Balsam and Tonie Mixture, and I feel it my duty to say that though she has taken but one buttle of the Balzam and two of the Tonic Mixture, she is restored to a comfortable state of health, and has commenced attending to her domestic affairs. Previous to taking your medicine, she was wholly confined to her bed for thirteen weeks. You are at liberty to publish this for the benefit of Dyspeptics, as I have no doubt but that it ought to be universally known. I have spent with other doctors more than one bundred dollars to no purpose. Yours, respectfully, ADAM SURFACE.

Clear Creek, Warren co . Dec. 20, 1834. This is to certify that I have been relieved of my Dyspeptic symptoms, which have been severe and of long standing, by the use of Dr. S. A. Latta's Balsam and Tonic Mixture. I have been under the care of several eminent Physicians, and tried many of the popular medicines of the day with but little effect, and am free to say that so medicines are the best that I have ever used THO. ANDERSON.

Cincinnati, Nov. 10, 1834. Cincinnati, Nov. 10, 1834.

This is to certify that my wife has been re lieved of the following symptoms by the use of Dr. S. A. Latta's Anti-Dyspeptic Balsam, and Tonic Mixture. For the last four years she has labored under Dyspeptic symptoms. Such as pain in the breast and side, attended with a cough, also pain, soreness and swelling of the stomach together with the raising of the food after eating, headache, dizziness, costivoness, diarrhora, paltogether with the raising of the food after eating, headache, dizziness, costiveness, diarrhea, palpitation of the heart, great flatulency with belching and cold feet. The long continuance of those symptoms produced great debility. She has followed the prescriptions of several eminent Physicians, and used the most celebrated remedies without relief. She is now almost entirely relieved by the use of one bottle of Dr. Latta's Balsam and Tonic Mixture. In view of this, I have given the above certificate, with a desire have given the above certificate, with a desire that it should be published for the good of those who may be afflicted in the same way. HUGH JOHNSON.

Lebanon, O., Nov. 1834. Lebanon, O., Nov. 1834.

I hereby certify that for the last two years I have been afflicted with the following symptome, to an alarming degree, viz. dizziness, and pain in the head, also in the breast and side, slight cough, sourness and pain, with soreness at the pit of the stomach, swelling in the stomach and pain, with wind after cating, with frequent raising of food after each meal, heart burn and cold feet. I was of costive habit, and at the time I commenced taking your Balsam and Tonic Mixture, I was so debilitated as to be unable to attend to any business, or even leave my house. I have now used one bottle of the Balsam and one of the Tonic Mixture, and am restored to the enjoyment of a comfortable state of health, and have resumed my occupation in life.

JOHN PATTON.

JOHN PATTON. Warren Co., O., Dec. 20, 1834.

Marren Co., O., Dec. 20, 1834.

Having heard of the success of Dr. Latta's An the Dyspeptic Balsam and Tonic Mixture in relieving Dyspeptic patients, my curiosity has led me to pay some attention to the demand for the medicine. I live in part of the house in which eaid medicine is kept for sale, and I am frequently in the store, and must acknowledge that the demand for this medicine far exceeds any expectation, and the demand appears to be increasing. And as far as my knowledge extends, beneficial results have been the consequence of the use of this medicine, and I have no doubt but it is at mirably calculated to remove all the symptomse. Dyspopsia in a very large majority of cases which have baffied the skill of hundreds, and the strong probability is that if Dyspeptics would follow the

directions accompanying each bettle, there are very few, if any, who would not be benefitted.—
They are entirely vegetable, and perfectly safe Dr. J. BORDEN.

THEALTH.—BAILEY'S CHEMICAL COMPOUND FLUID EXTRACT OF SARSAPARILIA, for purifying the blood, and removing all diseases arising from injudicious use of Mercury, exposures and imprudencies in life, Scrofula, Kings' Evil White Swelling, diseases of the liver and skin, constitutional weakness, chronic and nervous affections, &c. &c. It has also been found a most nacful spring and fall purifier of the blood. The rapidity with which this article has sold, and the very flattering recommendations it has received, are evidences of its superior efficacy. The subjeited are among the communications in the hands of the proprietor:

mong the communications in the hands of the proprietor:

In calling attention to the medical virtues of this celebrated plant, I would selvert to the fact familiar with every physician, that a numerous class of diseases arise from that impure state of the blood, which this active remedial agent is so efficacious in purifying. The great importance attached by medical practitioners to the properties of the Sarsaparilla has engaged the attention of chemists, as to the mode of preparation in which its virtues can be most advantageously combined. Their experiments have resulted in the discovery that the Chemical Composer Fluin Expact is decidedly superior to any other form in which it can be used. Since the istroduction of the Fluid Extract, it has grown into rapid and extensive use, and its reputation is constantly increasing. We consider it one of the most valuable articles in the Materia Medica, and find a material advantage in the standard preparation of uniform strength which is obtained by the Fluid Extract. Its superiority over the Decections and Syrups sometimes made use of, is strikingly apparent. It obviates the necessity of preparing fresh decoctions every day; and does not surfeit and nauscate the stomach with the large proportion of sugar which has to be taken with each does of the syrup, and which renders it incapable of holding much of the pure extractive matter in solution.—

One bottle of the Fluid Extract is fully equal to a gallon of the syrup, or the decoction, as usually prepared. a gallon of the syrup, or the decoction, as usually

One bottle of the Fluid Extract is fully equal to a gallon of the syrup, or the decoction, as usually prepared.

The virtues of this valuable medicine cannot be too extensively known, as there is scarcely an individual who would not be benefitted by its use. The uniform testimony of medical men in its favor, and the great success which has attended its introduction, both in hospitals and private practice, is a convincing proof of its value, and of its superiority over other preparations of the Sarsaparilla.

MEDICUS.

Mr. C. C. Bristol.—Dear Sir: Please send me four dozen bottles Bailey's Compound Fluid Extract of Sarsaparills.

I cannot but express my highest sense of gratification in the result this excellent preparation has had in the cure of Cutaneous Diseases. In every case which has come under my practice, it has had the most complete success. Not one-even the most obstinate and long standing—but has received a permanent cure from this very excellent compound. In a section of country like this, where the principal diseases arise from a vitiated state of the blood, I think the introduction of your preparation will be of the most eminent service.

I consider it the neatest preparation of sarsa

service.

I consider it the neatest preparation of sarsaparilla I have ever met with, and as such I unhesitatingly give it my carnest reccommendation.

Truly yours, ac.

TELPONE ANOTHER.—The Kel amazoo Mutual Insurance Company, in. corporated for the purpose of insurance against fire, in the state of Michigan, is now in success. ful operation. Their office is in the village of Kalamazoo, and it is their intention to establish an agency in every village throughout the state, to rescrive the applications of persons wishing to associate with them.

The principles of such a company, when understood cannot fail to commend themselves to be favor of the public. It is not a moneyed monopoly;—nor is there, nor can there be, any money.making scheme connected with it. It is nothing more nor less than a voluntary association of individuals pledged to bear each other's losses in just and equitable proportions,—or, in other words, to "help one another."

Every man who insures in this Company, becomes a member of it, and is directly interested in its prospority. At the time of making his application, he is required to give his note, with approved security, for the premium sele." The rate of the premium is governed by the amount insured and the hazard of the risk:—For instance, if a farmer wishes to insure \$500 upon his barn and contents, the rate of which is 4 1.2 per cent, he gives his note (not on interest) for \$22 50,—six per cent of which, \$1 35, is stance, if a farmer wishes to insure \$500 upon his barn and contents, the rate of which is 4 1.2 per cent, he gives his note (not on interest) for \$22 50,—six per cent of which, \$1 35, is paid at the time; and until a loss is sustained by the Company, he is not required to pay any further premium during the continuance of his insurance, which is in all cases for six years,—thus it will be perceived, the capital of the Company is made up of its "premium notes," which will always be sufficient in amount to indemnify against any loss that may happen. And the advantage of this system over other companies, to the person insured, consists in this, that instead of paying the cash for his premium, he gives his note, and may nover be called for payment of it, except in case of losses, and even then by small instalments,—in the one case he pays a cash premium to swell the coffers of a rich monopoly, and to enlarge the dividends of wealthy stockholders;—Whereas, by the plan of mutual insurance the persons insured are the only stockholders, and the individual saves in his own pocket, what by the other plan he is required to pay out of it. The practical operation of this system of insurance has been tested in Vermont and other Eastern states, and the result has been a saving to the insured of an average of three-quarters of the amount usually required to insure in stock companies.

The company invite the public to come for.

quarters of the amount usually required to insure in stock companies.

The company invite the public to come for-ward and partake of, as well as contribute to the advantages derived from mutual assistance. All communications may be addressed to the secre-tary, at Kalamazoo, who will give all necessary information to agents and others.

JAMES SMITH, Jr., President.

JAMES SMITH, Jr., President.

Z. Platt, Secretary.

The following is a list of local agents who will receive applications for insurance from pernsso in their vicinity:

CIRCULAR. To Parents, Teachers, and the friends of Education generally, in the State of Michi-

At th late convention in this city, of gentlemen from different sections of this state, interested in the promotion of common school education, the following, among other resolutions was a "Resolved, That a committee of three be ap-

pointed, to take into consideration the importance of engaging an able and qualified editor, to conduct a monthly periodical, devoted exclusively to the subject of common school education; and if thought expedient, to employ such editor and devise ways and means for the remuneration of his Having been appointed said committee, the undersigned, after mature consideration of the subject before them, have come to the unanimous

conclusion, that a publication of the character contemplated in the resolution, would be eminent. ly serviceable to the cause of education, and en-titled to the countenance and patronage of every titled to the countenance and patronage of every enlightened and patriotic citizen. Its design is to awaken a desper interest throughout the state, in the importance of primary education, to elevate the character of common schools, by communica-ting important principles and suggestions con-nected with the management and instruction of youth, and to spread before the community such facts and information as will interest all who feel any concern in the subject of popular education.

The committee have great pleasure in announcing that they have engaged as editor of the proposed journal, the Superintendent of Public Instruction, Mr. John D. Pierce. To literary qualifications of a high order, Mr. Pierce unites the advantage of former experience as a practical teacher and of minute and extensive acquaintance with the condition and wants of every portion of the state. Under such auspices, the committee the state. Under such auspices, the committee cannot doubt that the publication will be a valuable auxiliary in the cause of education, and they appeal with equal carnestness and confidence to their fellow citizens to encourage and sustain the

enterprise.

The committee are desirous, if possible, to send it into every town, and every school district in the state; and they respectfully solicit the co-opera-tion of gentlemen in every town, post-masters and common school inspectors in particular, in procur-ring, at least, four subscribers for each school disrid, and remitting payment to Alexander Mc.
France, of this city, before the first of March.
Printers throughout the state are requested to insert this circular a few weeks gratis.
